Frequently Asked Questions

How does pricing work?

Haus of Halcyon Beauty Parlor offers fixed pricing with gratuity included on select Sessions.

Sessions marked **“Varies”** or without a listed price require a consultation to determine pricing based on individual hair needs and desired services. These may include specialty services.

Express and À La Carte services are priced separately, may vary depending on the service, and do not include gratuity.

Do I need a consultation before booking?

Consultations are recommended for all new guests and may be required for certain specialty services.

New guests can book a consultation as a standalone appointment or schedule their desired Session and select the **New Guest Consultation** option available under each Session.

Consultations are paid appointments. Complimentary consultations are not offered.

How do I book an appointment?

Appointments can be scheduled through our online booking system. Guests can explore available services, review appointment details, and select a convenient time.

Detailed booking instructions are available on our online booking site to help guide you through the process.

Do you accept walk-ins?

We recommend booking appointments at least **24 hours in advance** whenever possible. While same-day availability may be offered, online booking requires a minimum of two hours' notice.

If you're hoping to visit on short notice or stop by without an appointment, please call ahead to check availability.
